

POLYURETHANE RESIN FOR FABRIC COATING

TOA URETHANE XU-1302B

Toa Resin Co., Ltd.

TOA URETHANE XU-1302B is an one component Polyurethane Resin with dry soft touch feeling after coating on fabrics. Suit for the waterproof coating fabrics of umbrella, raincoat, handbag, and tent.

1. Specification

Name	XU-1302B
Solid Content (%)	30 ±3%
Viscosity (cps/20°C)	100,000±30,000
Appearance	Slightly Yellow Transparent Solution
Solvent Type	MEK · DMF
100% Modulus (kg/cm ²)	35±5
Tensile resistance Strength (kg/cm ²)	Above 500
Elongation Percent (%)	Above 600

2. Example

TOA URETHANE XU-1302B	100 parts
MEK	properly
Predrying	100°C × 1 min
Curing	150°C × 2 min

3. Notice

1. Please keep away from fire and storage in dry dark place.
2. Storage time do not above 6 months.
3. Package : 180Kg drum.
